

CP's first **EVER** Livestream Event

.....
March 2, 2024 | 2-4 pm

What is a livestream event?

A livestream event is like any other event, but it's live online and can be accessed by just about anyone using a desktop computer or mobile device. You'll be able to watch CP's livestream event in real time through the platform, Accelevents.

What can I expect to see during CP's event?

CP's two hour livestream event will be much different from the Telethon you may know from WBAY. The event will feature four segments that involve the viewing audience interacting with our clients and staff, asking questions, sharing comments and so much more. Our goal is to show a unique side of CP to a new audience. Viewers can stay online and engage for just a few minutes or for the entire event.

When is the event?

Our Telethon livestream event will be on Saturday, March 2 from 2-4pm.

Do I need to register ahead of time?

We are asking folks who plan to tune in to register ahead of time, just to we can keep an accurate number count of possible attendees. Sign up is simple and only requires a name and email. You can register via CP's website. Registration opens February 1.

How do I participate?

During this event there will be lots of ways for you to join in the fun, making this a true interactive experience. You'll have the opportunity to ask clients questions, share comments and answer polls all in real time as the event happens. We hope you join in as it helps make the event fun for all!

I usually donate during the Telethon on WBAY. Can I donate during the livestream event as well?

Yes! We will be accepting donations that will go directly to client programming and services. Giving online means we won't have to worry about sending out a pledge form so your dollars can get to work at CP faster. It's a win-win!
